

## CRIME SCENE REPORT - CASE AAM

**Victim:** Anne Sfieldpark  
**Time of Death:** Approximately 5.00pm  
**Location:** Office  
**Cause of Death:** Awaiting pathology report for confirmation.  
Suspected cause: Single stab wound to the heart

### NOTES

- The police were alerted by an anonymous phone call placed at 5.20pm. The caller's voice was distorted but appeared to have been male.
- Upon arrival the door to the office was discovered to have been barricaded from the outside - a chair lodged under the handle to prevent the occupant from exiting. The office was otherwise unlocked.
- The victim was found deceased, sitting in the office chair.
- Upon examination a single puncture wound was found on the victim - a thin, sharp metal object having been used to pierce the heart.
- A mark on the victim's face suggests she may have been struck at some time prior to her death. The mark was likely made by a ring.
- A bloodied hat-pin was found next to the victim. It appears to have belonged to the victim and worn prior to use as a makeshift weapon.

- The victim's mobile phone was located on the floor beside the body. A text was sent at 4.53pm to Mr Dan Sfieldpark. The text message contained a single word: 'Help' No reply was received.
- A portable safe had been opened and emptied. Usual contents: A single portable hard drive. The safe showed no signs of being forced. The hard drive has not been located. Inside the safe was a handwritten note:
- "I am amazingly absent; I believe I am the most absent creature in the world."

Apologies for this necessity x
